

Special Collections and Archives (SCA) maintains and makes accessible the University copy of theses and dissertations produced by VCU students. SCA frequently receives requests to photocopy large portions of a thesis or the entire work. In order to expedite these requests and to aid patrons, SCA asks that you, as the author of a thesis or dissertation produced at Virginia Commonwealth University, read the attached release form and sign where appropriate.

Photocopy requests that fall within the fair use guidelines of the copyright law will be honored. The Agreement governs the reproduction of the work, primarily, in its entirety. Requests for dissertations will be referred to University Microfilms, Inc. before they are considered.
