

Importing Citations from ebrary into RefWorks

NOTE: You must enable integration with RefWorks prior to exporting records. This is a **one time only set-up**. To do this, click **My Settings**, located to the right of the language choice drop-down menu. In the **Managing Bibliographic Information** area, click the **Show RefWorks** button.

Enabling this option will place RefWorks in the InfoTools drop-down and your bookshelf.

Export a single citation

In ebrary:

- Click the **RefWorks button** below the citation on the search results page or . . .
- Open the item in the ebrary **QuickView Reader** and select **InfoTools | RefWorks**.

Export multiple citations from a Bookshelf Folder

In ebrary:

- Sign into ebrary and select the Bookshelf tab. You must be signed in to view your Bookshelf.
- Select the **folder** containing the references you want to export.
- Click the **RefWorks button**.

In RefWorks:

- If you have not yet logged into RefWorks, you will be prompted for your username and password.
- Your citations will appear in the **Last Imported** folder.
